

Plan a St. Patrick's Day Party

March 17

Gather everything green from around your house to decorate one room.

Print shamrocks from the internet or draw a shamrock that your child can decorate – make lots of them with different styles (crayon/marker, ripped up construction paper and glue, or even glitter!)

Show YouTube videos of Irish dancers or singers, or previous St. Patrick's Day parades.

Take your time....it is the “process” of getting ready for the party that helps children learn organization and planning skills!

*Supporting children where they live, learn, and play.
